

1889 "Strong as the Strongest" 1913

## The Duty of a Bank

Is, first of all, to safeguard the money belonging to its depositors by careful investments, where the money is secured beyond peradventure. This bank loans a large part of its funds on Improved City Real Estate. Each application is passed upon by competent appraisers, and our policy has been a blessing to our community, because thousands of people are now owners of homes instead of renters. On the other hand, we hold security for our depositors that is absolutely good, better even than government bonds, because not subject to fluctuation of the market. We have handled many millions, and not a dollar has been lost. Besides, the calibre of the men behind the institution determines its standing. Look over our list of directors. No bank can present stronger names, and men who have made good in every undertaking. We want all the good people to line up with us. No matter how small, the habit of saving, once acquired, will grow on you.

One dollar starts an account.

Travelers' Cheques issued, good everywhere.  
Drafts on all parts of the world.  
Safety Deposit Boxes for rent.

## The Savings Bank of Richmond

## COMPANY NEEDS BETTER QUARTERS

Warrenton Must Provide Army or Lose Its Militia Command.

Conditions among the volunteer companies inspected during the past week by Adjutant-General Sale and Captain Partello, representing the War Department, were found to be satisfactory except in Warrenton. The company in the Fauquier County capital was found to be excellent in personnel, but laboring under the disadvantage of extremely poor army facilities. Rather, it may be said, there are no facilities worthy the name. The valuable United States military property is kept in the basement of the county courthouse, where unauthorized persons have access to the clothing, stores, arms and ammunition. No place is provided for the men to gather and have meetings. Worse, the community seemed indifferent.

Captain Partello told the town authorities that he could not recommend the continuance of a military command under such circumstances. Whereupon a meeting of citizens was held at once, and after were taken looking for provision for suitable quarters in the future.

General Sale, who contracted a cold while on the trip, and returned to his home near this city, has recovered, and expects to be at his office to-morrow.

**Alleged Careless Driver.**

J. W. Whitte was arrested yesterday afternoon by Patrolmen Moore and Boquet on the charge of carelessly driving an automobile in Broad Street near Elkhart.

## Hearty Meals Easily Digested

MI-O-NA not only gives quick relief but makes the stomach so strong that it can digest with ease any kind of food.

The very worst and most stubborn stomach can be put in the top shape in a short time, and to remedy will do it as thoroughly or speedily as MI-O-NA Stomach Tablets.

People who are always worrying about their stomach and what not to put into it are wasting time and money in a fine such of the pleasures of life.

Go to your pharmacist to-day, hand him 50 cents, get a box of MI-O-NA and take it as directed for just one week. Then if you think for any reason whatever that MI-O-NA Stomach Tablets have not done you the world of good, get your money back.

This honorable guarantee applies to any stomach ailment, whether it is called indigestion, gastritis, dyspepsia, catarrh of the stomach, loss of appetite or anything else.

Free trial treatment from Booth's MI-O-NA, Buffalo, N. Y.  
Tragle Drug Co. guarantees MI-O-NA.—Advertisement.

## SECOND SUSPECT IN COUPLET

Henrico Police Confident They Have Burglars Who Robbed Kelly Home Under Arrest.

Suspected of being one of the two burglars who, early Friday morning, entered and robbed the home of W. H. Kelly, on Hermitage Road, near the Fair Grounds, Shelton Turner, colored, twenty years old, was arrested yesterday by Officers W. H. Walton and A. W. Campbell, of Henrico County. He was taken to the County Jail, where he was confronted by Wythe, the four-year-old son of Mr. Kelly. The boy, however, was unable to make a positive identification.

The county authorities are confident that they have landed at least one of the guilty parties. Grover Jones, the negro arrested Friday, after being trailed by State Farm bloodhounds, has been identified by young Kelly. The suspect was placed in a room with four others, and was picked out by Kelly without a moment's hesitation. Both men have made several statements regarding their whereabouts at the time the crime was committed.

Mr. and Mrs. Kelly were both ill yesterday from the effects of the fright. It was thought for a while that a drug had been administered to keep them from waking while the room was being searched by the robbers. This is scouted by the county police, who point to the fact that a large sum of money, under Mr. Kelly's pillow, was not touched. If he had been drugged, they would have been one of the first places searched for booty. In addition to overlooking the money, the men also failed to find a quantity of jewelry belonging to Mrs. Kelly and her daughter. The trinkets were kept in a drawer in the first room which was ransacked.

Wythe, whose plucky escape and run for aid probably frightened the men, was yesterday the recipient of many congratulations. He was not affected by his experience, and is giving the officers all assistance in his power. He will be the chief witness against the alleged burglars at the preliminary hearing, which will probably be held Tuesday morning.

### GLASS BLOWERS DINE

First Annual Banquet of Local Union Held at Franchione's Hotel.

About sixty men gathered around the banquet board in Franchione's Hotel last night for the first annual dinner of Branch No. 21 of the Glass Bottle Blowers' Association. The members of the local union had as their guest and chief speaker of the evening William Launer, the national secretary of the Glass Blowers' Union. In his address, at the conclusion of the banquet, the national secretary gave a glowing outline of trade conditions, saying that a mere handful of the union is out of work at present, and the prospects are that increased business will soon furnish employment for all.

It was determined that the Richmond members of the union, who will represent Branch No. 21 at the annual national convention in Marion, Ind., in August, are to make a fight to bring the 1914 convention here. The Chamber of Commerce will be asked to cooperate in securing the convention for Richmond. The local branch has about seventy members, and the national membership runs somewhere in the neighborhood of 11,000.

### LAMP CAUSES FIRE

Thrown by Woman in Rough House and One May Die.

A serious fire was averted by quick work on the part of English street last night when a lamp was thrown from a window of a rough house at 111 East English street. The lamp, which was a kerosene lamp, was thrown from a second-story window and landed on the street. The fire was quickly extinguished, and no one was injured.

When officers arrived on the scene some of the disorderly negroes had disappeared, but three young Richmond boys, Charles, Louis and William, were arrested. Charges of disorderly conduct were made against them, with the exception of the woman who threw the lamp, who was charged with felonious assault.

The burned woman was rendered emergency treatment by Dr. O. C. Page, ambulance surgeon, and removed to the hospital to a critical condition.

The fire was put out after doing slight damage to the house.

### Petition in Bankruptcy.

A petition in voluntary bankruptcy was filed yesterday in the United States District Court by John D. Beach, a freeman, of this city, naming liabilities in the amount of \$14,752. The list of creditors includes the names of several Richmond loan companies.

### Council Committee Meetings.

The following committees of the City Council are scheduled to meet during the week:  
Monday—Streets, at 8 o'clock; Finance, at 8 o'clock; Public Works, at 8 o'clock.  
Tuesday—Board of Aldermen, at 8 o'clock; subcommittee on claims, at 8 o'clock.  
Wednesday—Board of Public Interests, at 8 o'clock; Dock, at 8 o'clock.

### LECTURE BY PRITCHARD

Judge of Circuit Court of Appeals to Address College Law School.

Judge Jeter C. Pritchard, of the United States Circuit Court of Appeals, will lecture on Monday, February 11, at Richmond College, on the subject, "The Power of the State or Federal Judiciary to Decline to Enforce an Act of Congress." The lecture, which will be given at 8:15 o'clock in the evening, will be open to the public.

The hearing in the injunction proceedings was fixed for December 18. Attorneys for both sides appeared on the date and stated to the court that they were unprepared to proceed with the case, and the hearing was deferred to yesterday.

### Shaw's Hearing Continued

T. J. Shaw, of 119 South Linden Street, appeared in Police Court yesterday morning to answer a summons charging him with permitting his five-year-old son, Bernard, to place obstructions on the tracks of the Richmond, Fredericksburg and Potomac Railroad, but his hearing was continued until February 10. Before continuing the case, Justice Crutchfield had a friendly talk with Shaw, and impressed upon him the necessity of keeping the child under better control.

### Mr. Button Here.

Charles F. Button, of Walker's Ford, Appomattox County, is in Richmond, the guest of his friend, Insurance Commissioner Joseph Button.

## Finicky Appetites Put in Order

You Can Sit Right Down and Eat Anything Served if You Get Acquainted with Stuart's Dyspepsia Tablets.

With a most pathetic sigh the dyspeptic sits down and "views with alarm" his hungry companions. Now, the best doctrine for most people is to couple a square meal with Stuart's Dyspepsia Tablets. To sit down to a good meal and eat whatever is served is getting back to the good old days when grandfathers carved the roast; when that family made a clean-up; and when good appetites with sound digestion produced the men and women that have made our nation what it is.

Stuart's Dyspepsia Tablets are the dyspeptic's hope. They are a natural restorative of healthy action to the stomach and small intestine, because they supply the elements that the weak stomach lacks—pepsin, golden seal and other digestives.

If you are afflicted with any symptoms of stomach trouble, be assured that your digestive organs are losing power—they need help and there is no more sensible help to be given them than to supply the elements which will do the work of digestion for them.

Stuart's Dyspepsia Tablets have been found by test to have digestive powers, one grain of the active principle of these tablets being sufficient to digest 3,000 grains of ordinary food. It is no matter what the condition of your stomach, or how far your disease has progressed, one of Stuart's Dyspepsia Tablets taken at meal-time will do the work—regain its lost power, the muscles will be strengthened, the glands invigorated, and you will be a new man.

All druggists sell Stuart's Dyspepsia Tablets at 50 cents a box.—Advertisement.

## AFTER SIDNA ON PERJURY CHARGE

Warrant Calls for His Arrest at Expiration of Thirty-Five-Year Sentence.

When Sidna Allen gets through serving the thirty-five year sentence imposed upon him for complicity in the Hillville shooting of March 14, he will face a warrant for his arrest, charging him with perjury. The warrant has been placed in the hands of United States Marshal Clarence H. Smith, for execution, and will be served upon Superintendent J. B. Wood, of the State Penitentiary, who will acknowledge its receipt and service for the prisoner.

The action is the aftermath of the arrest of Sidna Allen and Wesley Edwards in Des Moines by Baldwin detectives. Sidna Allen, shortly before the Hillville shooting, was indicted in the United States District Court at Greensboro, N. C., on the charge of perjury, and was bonded for his appearance at the succeeding term of court. He failed to appear, and a capias was issued for his arrest. The government offered a reward of \$500 for his capture.

Detectives who effected the capture of Sidna Allen in Des Moines, it is understood, applied to the Federal authorities for the \$500 reward, and were notified that the money could be paid only upon certification of Sidna Allen's arrest had been served upon him and accepted.

The execution of the warrant placed in the hands of Marshal Smith, in Norfolk, yesterday, is expected shortly, and will be followed by the payment of the government reward. Prison officials figure that, allowing for deductions on account of good behavior, Sidna Allen will be a free man again in March, 1914, when the warrant just issued will become at once effective.

### Mr. Simon Goes West.

Nathan Simon will leave today for Cleveland, O., to attend the annual convention of the Merchant Tailors' National Association, which opens at the Hotel Staller on Thursday. Simon, who is the only local member of the association, long served on the executive committee, and has taken an active part in its deliberations. After the convention closes Mr. Simon will take a short trip through the West.

### Two Charges of Larceny.

William Robinson, a negro chauffeur, was arrested yesterday by Detective-Sergeants Wiley and Keenan on two charges of larceny. He is charged with having stolen \$1 from Louis Romick and \$1 from Lawrence A. Martin.

### Robbed of Handbag.

Mrs. Charles J. Harwood, of 22 North Lombard street, yesterday reported to the police that she was robbed of a handbag, containing about \$1 in currency, while making a purchase in McCrory's Five and Ten Cent Store, 421 East Broad Street.

## TEN DEATHS FROM MEASLES IN CITY

More Cases Already Reported at Health Office Than in Whole Epidemic of 1910.

With two deaths on Friday and one fatality yesterday, the epidemic of measles which is sweeping Richmond unchecked, claims a total of ten victims. Of the two deaths on Friday, one was that of a colored infant and the other a white infant, both undoubtedly from measles. While broncho-pneumonia was assigned on the certificate of the death recorded yesterday, the Health Department discovered measles in the house and attributed to that the cause.

The epidemic has now been raging for more than three months, yet 122 fresh cases were reported to the Health Department yesterday, making one of the heaviest days since the appearance of the disease in the city. In spite of the strictest precautions taken by the health officers and the stubborn fight they are waging to prevent the spread, the epidemic is steadily gaining headway.

The new cases bring the total number since November to 2,341, exceeding the record in 1907 and 1910. The evidence that 1910 claimed 331 patients, Dr. E. C. Levy, Chief Health Officer, is at a loss to know whether there are actually more cases this year than in 1910, or whether the public has been educated to the necessity of reporting every case that makes its appearance. It is a fact, however, that parents take the department every day of the presence of measles in the house without waiting for physicians to make formal reports.

While the Health Department has not succeeded in reducing the number of cases, great strides have been made in the present outbreak. Although there were fewer cases reported in 1910 than this year, the epidemic of three years ago claimed a total of thirty-nine victims against ten deaths this winter.

Because of the fact that measles becomes contagious before the patients notice an eruption, it is practically impossible to prevent the spread of the disease in the schools.

The Health Department urges that every case of measles be reported, and that the service of a physician be obtained immediately upon the discovery of the disease.

## STATE EMPLOYE EATS BUGS ALIVE

Bookkeeper Lapsley Consumes Them by Billion—His Body Now Bughouse.

This is a bug story. During the past week the State Dairy and Food Department has been conducting a milk and cream contest, the competition being extended to the dairies of the State. Under the direction of Deputy Commissioner Peyton Rowe, many samples were received and examined, and tests made by State Bacteriologist Meade Ferguson.

By way of taking interest in the proceedings, N. A. Lapsley, bookkeeper for the department, visited the scene of action. When the examination was all over and the samples no longer of use, he expressed a desire to drink some of the tempting milk and cream in the hope of award. There was nothing else to do with it, and he consumed a quart of what appeared the best looking milk in the lot.

Dr. Ferguson made his report yesterday as to what he found in the tiny samples submitted to him. There is more or less bacteria in all milk and cream, and one of the points in scoring, based on the scarcity of its presence.

With casual eye, Bookkeeper Lapsley glanced over the figures. Never before had he heard of so many bugs. Interested at once, he sought the name of the dairy whose milk he drank. To his horror, he found it had contained 80,000 bacteria to the teaspoonful.

The rest of the day was spent in making calculations. Late last night Mr. Lapsley, from his sick bed, announced that to the best of his knowledge and belief, he ate 480,000,000,743 bugs. Each, he feels, is busy in his interior.

## FOUND MOLES IN TERRIBLE SHAPE

Agent Taylor Gets Warrant for Arrest of Owner—Worst He Has Ever Seen.

Emmet Taylor, agent for the Society for the Prevention of Cruelty to Animals, swore out a warrant yesterday for the arrest of Irvine Brown, a contractor, charging him with working three moles when they were unfit for hauling. Mr. Taylor said last night that the case was the worst that had ever been brought to his attention in the twenty-six years he has been identified with the association.

According to his statement to the police, one mole had a raw place, eight by ten inches, on the right shoulder, with a piece of loose skin, seven inches long and five inches wide, hanging down from the place where it had been torn away. The left shoulder was alleged to be equally as bad. Two other moles, the agent charged, were in the same condition, with raw and bleeding spots on their hind legs and hips.

The arrest was made by Policemen Krouse and Galbraith. "I have never seen moles in worse condition," said Mr. Taylor. "In some places the wounds were bleeding, and the animals suffered terrible agony as they endeavored to pull wagons under the lash when the collars literally tore new wounds in those already open. I shall present the evidence to Justice Crutchfield on Monday, and it will convince him that we are not dealing this time with an ordinary case. Brown is a white man, now engaged in hauling material away from the armory, which is being erected by the city of Richmond."

### Goose to Asylum.

Omey Bryant, eighteen years old, arrested some time ago on the charge of an attempted grave offense against the city, was yesterday sent to the Eastern State Hospital for the insane at Williamsburg by Police Justice Crutchfield.

## LOST COUPON BOND IS NOT REPLACED

Frenchman Cannot Recover From State—Argument for Registration.

No authority exists for replacing a coupon bond or any part thereof that becomes lost or any part thereof that Auditor Rosewell Page, in dealing with a case presented by a citizen of Paris, France, who owns one of the obligations of the Commonwealth of Virginia. The Frenchman wrote regarding a semi-annual interest coupon from a bond he possesses, which he has lost.

His claim appears to be entirely just. The coupon bonds are numbered, and so are the interest certificates attached. No claim has been made for the interest on the bond of the number owned by the Parisian, due January 1 of this year. But there seems no remedy in law for the situation.

Mr. Page has replied to the effect that the loser might set up his claim in the courts and then file an indemnifying bond to secure the Commonwealth. But, as the amount in this instance is only \$7.50, it would cost a good deal more than the amount to be regained to set up the debt.

There have been one or two instances where bonds of this class of obligation have been burned. The owner simply lost the money. Herein lies the argument for registering bonds. If they are lost or destroyed, the law provides ample remedy. The loss is advertised, so that the public is on notice, then a bond is filed to indemnify the State, and a new obligation is issued to take the place of the old. Registration at once notifies each bond and locates the owner.

## STATE EMPLOYE EATS BUGS ALIVE

## FRIENDS PLAN TO HELP BLIND MAN

Will Give Concert to Raise Money Needed for Delicate Operation.

A young man has lost his eyesight. Local physicians hold out no hope, but a famous surgeon in New York says that he can restore his vision. The operation is at once delicate and expensive. The young man is poor and has no money to pay the famous surgeon. His friends will therefore hold a musical entertainment to raise the money to pay for the operation.

The foregoing is not a moving picture scenario awaiting the reel-winder's touch to give it life. It is the true story of John W. Tyler, of this city, who, as the result of an internal hemorrhage in the eye about four years ago, completely lost his vision. Treatment by Richmond eye specialists failed to bring relief.

On January 21, Mr. Tyler was taken to New York, where Dr. Charles H. May, said to be one of the most renowned specialists of the metropolis, traced the trouble to a "colored ring," which has formed in the eye as a result of the hemorrhage. By cutting away this ring, the surgeon said, Mr. Tyler's eyesight can be made almost as good as new. The operation, he said, will require a hospital residence of two or three weeks.

Friends of Mr. Tyler will on the evening of Monday, February 11, give a musical entertainment at the City Auditorium, in the hope of raising enough money to pay for the trip to New York and the operation. There will be vocal and instrumental numbers, and an interesting program is promised. Henry W. Baker has the entertainment in charge, and will be assisted, among others, by Misses Ada Kuyk, Amorella Allen and Florence Ramsey, Mrs. W. F. Monell, Haddon S. Watkins and the Philharmonic Orchestra.

Mr. Tyler is the son of the late Sylvanus E. Tyler, who was for nineteen years an employee of the City Water Department. He is a member of the City of Richmond United American Mechanics and the Daughters of Liberty.

## URIC ACID

The direct cause of Rheumatism and Kidney Diseases

German specialists have discovered a remedy known as Rheumaflegon that will absorb uric acid and remove its impurity from the system. It purifies the blood and clears the skin. This remedy is now for sale in Virginia, and has already given relief and permanently cured many people that have suffered for years with these troubles. This wonderful remedy is not hard on the stomach and is perfectly safe for old or young to take. The price of Rheumaflegon is 75c a bottle, but the manufacturers have agreed to send the first bottle for 25c to every one sending this add to the agents at once with 25c in stamps.
